New Transfer Pathway with Old Dominion University

Students who graduate from the Electric Utility Substation & Relay Technology (EUSRT) program can transfer up to 90 credits into a bachelor degree program at Old Dominion University, a prestigious research university in Virginia.

The transfer agreement allows EUSRT graduates to enroll in Old Dominion's Bachelor of Science in Interdisciplinary Studies with a major in Leadership or Bachelor of Science in Electrical Engineering Technology. Both degrees can be completed online. Students who graduate with a GPA of 2.5 or higher will be granted junior status at Old Dominion University provided they receive a grade of "C" or higher or better in all required transfer courses.
