

## 911 Communications and Operations (A55470)

The 911 Communications and Operations curriculum is designed to provide new students, as well as current practitioners, with knowledge and skills in the areas necessary for entrance or advancement within emergency communications.

Emphasis is placed on the development of concepts and theories of public safety communication systems, basic office software skills, technical writing, business math and statistics, cybersecurity fundamentals, public and interpersonal relations, understand local government finance systems, basics of GIS, personnel management and supervision, project coordination, time management, and organizational skills, grant writing, introduction to computers and networks, mental health awareness, and adaptation to technology within emergency communication organizations.

Employment opportunities exist in a variety of areas, including: local government emergency communication organizations, county sheriff's departments, 911 emergency dispatch organizations, law enforcement, fire and EMS agencies, private communication centers, and emergency management.

### COURSE REQUIREMENTS

Richmond Community College provides day and evening course sequences for selected programs to enable students to better plan what courses to take to reach their educational goals. However, given the continued increase in the use of technology in instruction and increasing student demand for distance learning courses, the College may offer hybrid, online, web-based and information highway courses in place of traditional courses in any course sequence that is listed. Therefore, students should be aware of this possibility and prepare themselves to successfully function in a hybrid, online, web-based, or information highway course.

	Class	Lab	Work/ Clinical	Credit	
<b>A. General Education Courses</b>					
1. Required Courses					
COM 120	Intro to Interpersonal Communication	3	0	0	3
