Bachelor or Master	4

Total Points for Previous Experience

Overall Total Points

*No credit given if more than 5 years old at time of admission

**No credit given if more than 7 years old at time of admission

Program GPA as of 01/31/2022: _____

*No credit given if more than 5 years old at time of admission
**No credit given if more than 7 years old at time of admission

We do not include expired courses when calculating points for classes.

The following courses are the only courses that expire:
BIO 165 & BIO 166 is 5 years (BIO 163 serves as a refresher if one or both are expired)
CIS 110 expires after 7 years
BIO 165 and BIO 166 should be completed at the same college.

We do not use cumulative GPAs for admissions for our nursing programs. The RichmondCC Nursing Admissions calculates a GPA based on required courses. The required courses are the courses in Box 1 on the first page of this document. We will not consider Spring 2022 or Summer 2022 classes in this calculation. If a student has not completed 10 credit hours of college required courses by January 31, 2022, then the admissions committee will consider their High School or GED unweighted GPA or if they have completed a college degree from a regional accredited school, then a cumulative GPA from that degree can be used.

Nursing Applicants who have completed BIO 165 & BIO 166 equivalents on a 10-point grading scale must make a B or higher beginning Fall Semester 2018. If a student completed these courses with a 7-point grading scale and had a grade of C this is acceptable for graduation. However, no points will be given in Box 1 for Cs in any course. All transfer courses will be assumed to be taken under a 10-point grading scale unless the student provides information to the Admissions Counselor indicating a 7-point grading scale.

Program GPA as of 01/31/2022: _____
