## Mental Health Counselor Thankful for Her Start at RichmondCC

Paula Colden of Richmond County is a Licensed Clinical Mental Health Counselor with Trillium Health Resources, where she helps Emergency Departments determine best next steps for those who come into the ER suffering from mental health issues. Her career journey started in 1993 when she enrolled in the Human Services program at Richmond Community College after getting laid off from her factory job. After earning that degree, she continued adding degrees to her name and eventually passed the state exam to become a licensed counselor. As a result, she has worn many hats during her 30-year career in the mental health field.

## Promoting Awareness of Teenage Violence

On Wednesday, Feb. 11, our Counseling Department will hold a presentation, "Teen Dating Violence Awareness," from 1:30 to 2:30 p.m. at the Honeycutt Center, room 130, Scotland County Campus.

The purpose of this presentation is to raise awareness about the ongoing and imminent danger of violence that often occurs among teenagers dating. The danger can include physical, sexual, emotional, verbal, financial and technological abuse. We want to help our young students have healthy relationships by providing positive dating guidance such as respect, communication, and consent.
