Diamond Rio - Oct. 18

Country music supergroup will kick off the 2024-2025 Performing Arts Series with a show on Oct. 18 at the Cole Auditorium.

Originating as The Tennessee River Boys in the '80s, the band evolved into Diamond Rio in 1989. They had their first big hit in 1991 with "Meet in The Middle," making them the first

country music group in history to reach No. 1 with a debut single.

The band is also known for their multi-week chart-topper "How Your Love Makes Me Feel,"

crossover hit "One More Day," as well as timeless hits "Beautiful Mess," "Unbelievable," "I Believe," and many more.

Amassing numerous accolades throughout the years, Diamond Rio is a member of the Grand Ole Opry, won six Vocal Group of the Year Awards (four CMA and

Chinna Hale

2006 Nursing Graduate Wins Alumni Award

Chinna Hale, the Executive Director of Nursing Services for Scotland Health Care System, has been named Richmond Community College's 2024 Outstanding Alumni award winner.

"Chinna is known for her outstanding dedication, compassion, and her exceptional years of service to Scotland Healthcare System," said Dr. Qunna Morrow, Dean of Allied Health & Human Services at RichmondCC, who nominated the 2006 nursing graduate. "With over 18 years of experience in the field, Chinna has consistently demonstrated a high level of professionalism, empathy, and commitment to patient care. She has received numerous accolades from patients and colleagues alike for her

Friday, Oct. 18 - 7:30 p.m.

Country music super group **Diamond Rio** has won six Vocal Group of the Year Awards (four CMA and two ACM), received fourteen Grammy nominations, and won a Grammy Award for their album, *The Reason*.

Tickets: \$40-\$55 (Includes Sales Tax)

Wednesday, Dec. 18 - 7:30 p.m.

Charles Dickens' "A Christmas Carol" comes to life in this musical filled with haunting special effects and plenty of laughter surrounding this beloved Christmas tale. Celebrate the true spirit of Christmas with this splendid show.

Tickets: \$30-\$40 (Includes Sales Tax)

Saturday, Jan. 18 - 7:30 p.m.

The Ultimate Fleetwood Mac tribute band Rumours recreates the band's legendary persona in all its youthful glory and takes audiences back to a time when music was still an unbridled cultural experience.

Tickets: \$15-\$40 (Includes Sales Tax)

Friday, March 28 - 6:30 p.m.

Presented by TheaterWorksUSA, "**The Magic School Bus: Lost in the Solar System**" is based on the classic book and TV series. Families will love watching their favorite characters as they join them on an epic interplanetary field trip.

Tickets: \$10-\$20 (Includes Sales Tax)

Tuesday, April 15 - 7:30 p.m.

Uptown will bring a celebration of Motown and Soul music to the Cole. This group of men combine the smooth stylings of R&B with the fresh hits of today to provide a unique performance that will have the crowd on their feet dancing and singing.

Tickets: \$20-\$35 (Includes Sales Tax)

BONUS SHOW

Tuesday, June 17 - 7:30 p.m.

Always a favorite for Cole audiences, the **Charlotte Symphony** will put on a patriotic and summer music-themed performance.

General Admissions Seating

COLE SHOWS CONTINUED FROM P.1

two ACM), received 14 Grammy nominations, and won a Grammy Award for their Christian Country album, "The Reason."

Over the three decades the band has been making music, Diamond Rio has sold more than 6.8 million albums and surpassed over 1.05 billion global streams.

"We are excited to have this award-winning country music band come to the Cole Auditorium, where every seat in the

house is the best seat in the house," said Director of the Cole Joey Bennett. "You don't have to go to a big city venue to see a great performance. We are bringing those shows to you right here in Hamlet."

Tickets for Diamond Rio on Friday, Oct. 18, at 7:30 p.m. range from \$40 to \$55 depending on seating.

The Season Line-up

Other shows for the 2024-2025 Performing Arts Series at the Cole Auditorium include two musicals, a Fleetwood Mac tribute

band, a celebration of Motown and Soul music and a bonus performance by the Charlotte Symphony.

Purchasing Tickets

Tickets can be purchased in person at the Cole Auditorium Box Office or online at www.richmondcc.edu/showtickets. Show tickets will be sold as a package or individually. Purchasers will be assigned a seat location when tickets are purchased.

Ticket prices vary per seating section. Season tickets range in price from \$100 to \$150. All

prices include sales taxes. Online sales surcharges not included. Groups of 10 or more save 20% on individual show tickets.

For more information, call the Cole Auditorium at (910) 410-1691.

ALUMNI

CONTINUED FROM P.1

tireless efforts in providing exceptional patient-centered care, innovative treatment approaches, and leadership in promoting evidence-based practice.”

Bebe Holt, Senior Vice President of Patient Care Services and Chief Nursing Officer for Scotland Health Care, also lauded Hale’s work in the healthcare field.

“Chinna has a passion and calling to serve our communities. She strives to improve patient care and processes for all. She is recognized by peers, physicians and teammates as an effective leader with the highest integrity,” Holt said.

Hale, of Laurel Hill, started her career as an emergency room nurse after graduating with her Associate Degree in Nursing from RichmondCC. After five years, she was asked to assume a charge nurse position in the ER at Scotland Memorial Hospital. About a year later, she accepted the role of ER Manager and later became the Assistant Director. In 2017, she moved to the Inpatient Unit as the Director of ICU, Progressive Care and the Resource Pool. Her scope expanded to include Med Surgical and Telemetry units.

In her current position, Hale is responsible for Nursing, Cardiopulmonary and Respiratory Services. She works to ensure patients coming to the hospital receive the best care possible. These responsibilities include recruiting both new and experienced nurses.

Chinna Hale is the Executive Director of Nursing Services for Scotland Health Care System. She graduated in 2006 from Richmond Community College's Associate Degree Nursing program.

“This alumni award means so much. Richmond Community College holds a special place in my heart because it was here where it all started,” Hale said.

Hale completed the Allied Health Science class at Scotland High School, but she was not planning to take the Nursing Assistant class at RichmondCC when she became a senior. However, her high school instructor, Ellenor Cross, insisted she take the college class.

“She thought I was a good fit. I told her I had no intention of pursuing nursing, and she said, ‘Oh Chinna, hush! You are going to participate,’” Hale said.

And so she did.

“When I started the CNA clinical rounds at a local nursing

home, I started to realize how much I enjoyed taking care of people,” Hale said.

Hale remembers caring for a resident who was frail, lonely and wouldn’t eat anything. After she and her classmates spent some time with her, she began eating and putting on weight.

“It was one of the most rewarding things I had ever experienced. It was a blessing to help someone who couldn’t help herself. That is when I realized nursing was my calling,” Hale said.

After five years of working as a nurse, she went back to school to pursue a Bachelor of Science in Nursing and then a master’s degree in Nurse Leadership.

“I truly believe that nursing is

“I truly believe that nursing is not a job; it’s a calling.”

- CHINNA HALE -

not a job; it’s a calling. I thank God for the opportunity to serve the patients and teammates that I work with. I am thankful the Lord ordered my steps and brought me to Richmond Community College,” she said. “RichmondCC offers affordable education, and people don’t realize what a difference that makes in our community. RichmondCC is helping mold professionals who will staff our hospitals, schools, EMS, and so much more.”

Despite the many tears and prayers before every test during the challenging nursing program, Hale said she would still do it all over again. She is also thankful for the support of her husband, Walter.

“He worked two jobs to ensure I was able to get through school. I would have never made it without him. He has always been right there believing in and encouraging me,” she said.

She and Walter have two daughters, Ramsey Grace and Bella Rose, who mean everything to them.

“To say I am proud of my girls would be an understatement,” Hale said.

Hale and her family will be invited to the College’s Convocation program on Oct. 2 at the Cole Auditorium, where she will be officially recognized as the Outstanding Alumni of the Year.

Are You Ready to Become a Nurse?

The admissions application for the Associate Degree Nursing program at RichmondCC must be submitted before the summer semester of the year you wish to enter the ADN program begins. For the 2025 Fall Semester, applications must be submitted by March 31, 2025. There are also many pre-requisites for the program, including being a registered CNA. Call (910) 410-1700 for more information.

Short-term Training to Long-term Careers

Programs designed to put people on the fast track to trade skills that lead to high-paying jobs

MACHINING

Richmond County native **Apprile Mabe** graduated from RichmondCC's Machining/CNC Operator program 10 years ago and went straight into a job with Columbus McKinnon, a company that designs, manufactures, and distributes a variety of material handling, lifting, and positioning products. In other words, she was designing and making parts for overhead cranes.

Five years ago, she moved to Wilmington to work for nuclear power company GE Vernova. Now she is making parts for nuclear reactors and enjoys every minute of her job.

"I would encourage anyone who is looking for a skill set to invest in the Machining program at RichmondCC. It can lead to a very prosperous and fulfilling career," she said.

Apprile also said so much of what she learned in the machine shop at RichmondCC under the instruction of Clayton Dial has helped her be successful in her career.

WELDING

27-year-old **Braxton Lett** of Laurel Hill graduated from the Welding Technology program at RichmondCC on July 29. He was hired to work part-time by manufacturer Cavco a month prior to graduating, but he is now a full-time welder working Monday through Friday from 6 a.m. to 2:30 p.m. Braxton said not only is the pay great at Cavco, but so are the benefits.

Braxton took RichmondCC welding classes through the dual enrollment program when he was at Scotland High School.

A couple years after graduating high school, he enrolled in the Accounting & Finance program at RichmondCC, but quickly realized after one semester that type of career was not going to suit him. That's when he decided to pick back up on the training he had already received in welding. After one year in the Welding Technology program, he graduated with his diploma.

INDUSTRIAL SYSTEMS

The mother of three children, **Jessica Carpenter** of Rockingham was hired by Plastek to be a machine operator, but she has since worked her way up in the company to lead supervisor.

Her mechanical training really started when she took an advanced operator class at Plastek, and she found she really enjoyed learning how things operate.

The company then sent her to RichmondCC to take the Industrial Systems Technician class. She completed both Phase 1 and 2.

"It really opened my eyes to a whole new world. Now I see exactly how and why you have to do certain things," she said. "It's different when you know what to look for and what you are looking at."

As someone who had never even turned a wrench before her job at Plastek, Jessica offers this encouragement: "Don't let the fear of not being able to do something stop you."

TRUCK DRIVER TRAINING

Matthew Locklear graduated from the Truck Driver Training program at RichmondCC on May 15 and went to work less than a week later with Frizzell Trucking.

Prior to enrolling in the Truck Driver Training program, he was working as a manager of a UPS Store.

"I heard that truck driving was a great career and you would always have a job," Matthew said. "I thought,

"Why not get paid to drive?"

Matthew appreciated the support of the instructors for the program – Anthony Lynn (now retired), Jeff Ivey, William White, Demetrius Everette, Steve Hardwood and Jarvis Locklear – for their "patience and willingness to teach us how to drive and operate a truck."

"I am so glad that I have started my career, and I am getting this experience," Matthew said.

Short-term Training to Long-term Careers

Programs designed to put people on the fast track to trade skills that lead to high-paying jobs

ELECTRIC LINEMAN

23-year-old **Noah Taylor** of Lumberton landed a job with River City Construction before he graduated from the 14-week Electric Lineman program in August. He will be part of a crew headed to Virginia to install fiber optic cables for electric utilities and telecommunication service providers. The company will be paying for his hotel, and he will receive a per diem each day for food and other expenses.

Noah, who has a 2-year-old son to support, is excited about the job and gaining experience in this new career field.

"I really enjoyed the structure of the lineman program at RichmondCC," Noah said. "I feel I learned more in the past 14 weeks than I have learned in the past five years of my life. There's been a lot of life lessons."

After graduating high school, he enrolled at UNC-Greensboro, but he then dropped out to go to the local community college, where he earned an Associate in Engineering.

Because he has always enjoyed working outside, he started researching electric lineman schools.

"I saw that RichmondCC's program was number one in the state, so I came here," he said. "It was also really affordable."

In the same Electric Lineman class were **Alex Branch**, 22, and **Chandon Jones**, 19; both qualified for interviews with Duke Energy. For these two young men, getting hired by a leading utility company like Duke Energy would be like win-

Noah Taylor

ning the career lottery.

Before enrolling in the Electric Lineman program at the beginning of the summer, Alex was working for his family's construction business. While he enjoyed the work, he felt working in the utility industry would be a better long-term career path for him.

By the time of the Lineman Expo held at the conclusion of the 14-week program, Alex said the skills he had learned felt "second nature." Alex was also the Consolidated Electrical Distributors Investment Award winner for having the highest scores in the class.

After graduating from Red Spring High School last year, Chandon went to work in a plant.

"I've been working outside my whole life in either construction or farming, so I knew the plant environment wasn't right for me," Chandon said.

He knew people who had graduated from RichmondCC's Electric Lineman program and were now building successful careers and "driving brand new trucks."

Alex Branch

The moment he started climbing the 40-foot poles in the Lineman Yard, he was hooked.

"You learn so much in 14 weeks. It's more than just climbing a pole. You learn work ethics, dependability and teamwork," Chandon said. "These things

Chandon Jones

build a strong foundation for what companies are looking for."

Chandon was the recipient of the Joey Keane Award, which is presented to a lineman in the class who exemplifies "great heart, toughness, and a never quit attitude."

UPCOMING CLASSES

Bartending - \$70 - Sept. 9 | Captain Larry's in Laurinburg

Behind the Wheel Training for CDL - \$499 - Sept. 9 | Scotland Co.

Small Engine Repair - \$125 - Sept. 9 | Hamlet Campus

REaCH Student Set to Go to NC State with C3 Program

Alexander Bahneman is a rising senior at Richmond Early College High School (REaCH). He was recently accepted into the C3 Program at NC State University.

Alexander Bahneman

C3 is a dual-admission, dual-enrollment program between N.C. State and Richmond Community College. RichmondCC students who are admitted into the program receive guaranteed admission to NC State while finishing their degree at RichmondCC.

C3 provides support for students during their time at RichmondCC and prepares them for transferring to N.C. State. Admitted students will have the opportunity to use N.C. State's student

information system and online advising systems, speak with an academic advisor at both institutions, and participate in specialized C3 activities.

C3 is just one of 10 guaranteed admission programs that RichmondCC has with four-year N.C. colleges

and universities. Alexander first applied to the Pirate Promise program with East Carolina, but he switched his focus to the C-STEP program at the University of North Carolina-Chapel Hill. Working with Quentin Locklear, guaranteed admission advisor at RichmondCC, Alexander got accepted into C-STEP.

However, Alexander realized his educational plan was better suited with another equally

prestigious university: NC State.

"Since I am working toward a certificate in Mechatronics Engineering Technology at RichmondCC and due to the fact that I wanted to partake in my final year at REaCH, I decided to apply for the C3 Program at NC State," Alexander said.

The certificate in Mechatronics Engineering Technology would have pushed him over the transferable credit limit with the C-STEP program.

While already an N.C. State student under the C3 program, Alexander will transfer to NC State at the start of the 2025 fall semester. He plans to go into the joint biomedical engineering program between NC State and UNC-Chapel Hill.

Alexander's career plan is to become a medicinal chemist.

"RichmondCC has helped me reach my educational goals by al-
